PROFILE

Full Stack Developer with expertise in building scalable web applications and secure back-end systems, leveraging a strong foundation in finance to deliver data-driven solutions. Proven track record in managing high-value credit portfolios and creating tailored software solutions for complex business needs. Passionate about bridging technology and business innovation.

WORK EXPERIENCE

FREELANCE DEVELOPER

2024

Karflex - Lima, Perú

I designed and am developing a new version of the site using the MERN stack, focusing on scalability and customization.

I improved the functionality of a WordPress site with WooCommerce, optimizing the user experience and e-commerce performance.

FINANCIAL CREDIT ANALYST

2010 - 2023

Caja Piura - Lima, Perú

Led the development of tailored credit solutions, managing a commercial loan portfolio of over 10 million PEN for 200+ clients, achieving a 15% increase in portfolio profitability.

Integrated data-driven decision-making processes to streamline credit evaluation and risk management, ensuring compliance with Peruvian financial regulations.

FINANCIAL CREDIT ASSISTANT

2009 - 2010

Caja Piura - Lima, Perú

Successfully onboarded 50+ clients to the banking system, increasing portfolio placements by 25% through personalized customer acquisition strategies.

Supported credit evaluations by analyzing financial data and improving client onboarding efficiency.
